Subject: EME 109 Project

1

Identify and quantify, to the extent possible, the elemental random and systematic errors that are relevant to this experiment.

Any measurement taken

- Fan speed - systematic
- Fan setting - random
- Compressor - systematic
- Compressor load current - random
- R134a mass flow rate - random
- orifice differential pressure reading -random
- enter/exit voltage of fan motor - random
- WB DB thermometers a, b, c, and d - random
